

«Metaclass:
Class

«Stereotype
ConstraintBl

```
classDiagram
    class Metaclass["«Metaclass: Class"]
    class Stereotype["«Stereotype ConstraintBl"]
    Stereotype --|> Metaclass
```

The diagram illustrates a generalization relationship in UML. A box on the right, representing a stereotype, has a solid line with an open arrowhead pointing to a box on the left, representing a metaclass. The metaclass box is light blue and labeled «Metaclass: Class. The stereotype box is white and labeled «Stereotype ConstraintBl. The stereotype box is divided into three horizontal compartments, with the label in the top one and the other two being empty.
